Turning Awareness into Defense

THE PLATFORM BEYOND PHISHING SIMULATION

“
PhinExIntra is more than an awareness solution — it's a transformation.”

Global Threat View

Here's how we can help

The Rising Threat – Top Cyber Attacks

Phishing & Social Engineering: over 91% of cyber breaches start with phishing.

Techniques include smishing, vishing, quishing, deepfakes, and consent phishing.

Business Email Compromise (BEC): The costliest cybercrime globally, causing \$50B+ losses (FBI IC3 Report).

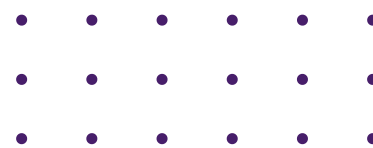

Attackers exploit human trust, impersonate executives, and trick staff into financial fraud.

Why It Matters:

Traditional training solutions stop at phishing.

PhinExIntra goes beyond, covering all social engineering & human-centric attacks.

Stay connected to get alerted.

Why We Are Different

The main 9 reasons

01

Comprehensive Social Engineering

Coverage (Phishing, Smishing, Vishing, Quishing, Deep Fakes, Baiting, Scareware, Whaling & more)

02

Gamified Learning & Engagement

Interactive simulations, quizzes, family-friendly awareness, and department-wise leaderboards.

03

People Risk Explorer

Identify very attacked people, privileged users, and departmental vulnerabilities with risk scoring.

04

Incident Response Drill Mode

Phishing simulations double as IR tabletop exercises, testing both users and response teams.

05

Cyber Champion Program

Rewards consistent safe behavior, fostering a security-first culture.

06

Global Phishing Advisories

Real-time updates from global threat feeds integrated into training campaigns.

07

Rich Awareness Library

400+ Awareness Videos, 500+ Posters, and refresher modules.

08

Physical Phishing Simulation

USB drops, rogue WiFi, and device misuse awareness.

09

Awareness-as-a-Service & Auditing

Full campaign management, logs, and compliance-ready reporting.

Let's start your project!

Our Vision

Get to know us

We do not simply sell solutions; we tackle the challenges that enterprises encounter. By introducing innovative technological advancements, we empower organizations to expand both vertically and horizontally.

Transforms awareness into instinct, guaranteeing that each click is a deliberate action.
